## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 18 and 22-36 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art does not teach or suggest a recording medium formed of two substrates having a photosensitive layer and deformable layer between where the photosensitive layer is formed of a zinc alloy containing tellurium and the deformable layer is a cross-linked polymer and the first substrate comprises grooves and lands where data is written on the lands. The closest prior art, applicant's own copending applications, comprise a substrate having a zinc-tellurium alloy thereon and deformable outer layer. There is no disclosure of two substrates sandwiching the zinc-tellurium layer and deformable layer or that the deformable layer follows the deformations of the zinc-tellurium layer during writing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth E. Mulvaney whose telephone number is 571-272-1527. The examiner can normally be reached on Monday-Friday 9am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Ruthkosky can be reached on 571-272-1291. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
